SUMMARY

Dynamic and accomplished mobile app developer, actively shaping the digital landscape. Specializing in React Native development, I bring a wealth of creativity and finely honed interpersonal skills to drive success in diverse projects.

With a demonstrated track record of delivering high-quality mobile solutions, I am committed to excellence and innovation in the ever-evolving tech industry. As a motivated and energetic contributor, I aspire to leverage my expertise to make impactful contributions to the growth and success of organizations within the industry.

EXPERIENCE

React Native Developer

Machnet Techonology

Dec 2023 – April 2024, Kathmandu, Nepal

- Built and updated mobile apps for both iOS and Android using React Native.
- Collaborated with the design team to create user-friendly interfaces.
- Monitored code quality and resolved issues to maintain app performance.
- Managed and enhanced several financial apps, such as Aidemoney, Transfaypay, and Equator, which facilitate money transfers.
- Implemented animations to improve user engagement.

React Native Developer -Intern

Machnet Techonology

Sept 2023 – Dec 2023, Kathmandu, Nepal

- Assisted in the development and maintenance of mobile apps for iOS and Android.
- Supported the design team in creating intuitive interfaces.
- Contributed to adding new features and fixing bugs to ensure smooth app performance.
- Gained hands-on experience in code review and quality assurance practices.

EDUCATION

Bachelor's in computer application

Kantipur City College • Kathmandu, Nepal • 2024

PROJECTS

Kitsune: [Link](#)

- Developed with React Native CLI, featuring anime streaming and search functionality, with bookmarks managed via Async Storage.
- Supports both Light Mode and Dark Mode for seamless theme switching.
- Utilizes Consumer Extension for API integration to enhance content accessibility

TravelIdeas: [Link](#)

- Built with React Native Expo, featuring Google Maps API for navigation and Gemini API for travel suggestions.
- Leverages Google Translator for content translation and i18n for multilingual support in up to 5 languages.
- utilizes Firebase Authentication for user login and data storage for managing user preferences and travel data.

StringArt: [Link](#)

- Built ArtGallery, a single-vendor e-commerce platform for string art using Next.js and Tailwind CSS as a learning project.
- Implemented Cash on Delivery (COD), dynamic filtering, and server-side rendering (SSR) to enhance performance and user experience.
- Focused on responsive design, optimized image storage, and an admin dashboard for product management.

AniStream: [Link](#)

- Developed AniStream, a free and open-source anime streaming platform using Next.js for learning purposes.
- Enables users to stream anime without ads, offering a smooth and uninterrupted experience.
- Built with a focus on performance, scalability, and modern web technologies.

SKILLS

Technical Skills: React.js, React Native, JavaScript, Next.js, TypeScript, HTML, CSS, Tailwind CSS, Git & Github

Soft Skills: Teamwork, Communication, Research, Problem solving, Time management, Decision making
